

Filtration elements – type Kleenoil

The Kleenoil type is a **100% copy** and replacement for Kleenoil filter elements. Type Kleenoil is designed for standard oil filtration and treatment, to remove particulates and water.

Type ECOFIL		SC Long	HC Long	LC Long
Type Kleenoil		SDFC	HDFC	LDFC
Absorption of solid particles	g	2200	1100	600
Absorption of water	ml	600	350	270
Fineness of filtration	µm (absolut)	3	3	3
